garnet

glass/280

(shiso / bulldog gin / tangarine / sake / ginger / co2)

garnet is a unique combination between the fragrance of flowers, the sweet and sour balance of kumquat and the natural pink and purple color of shiso soda's perilla leaves. the mild spicy aftertaste of ginger and gin is what remains, symbolizing the personality of scorpio - strong, resilient and energetic, able to overcome difficulties in life easily.

topaz

glass/280

(mango/ bacardi carta blanca / tio pepe / piper lolot leaves salt / celery bitter)

topaz's main base has a vanilla aroma from a typical ripe mango in Western Vietnam, homemade with rum, which is made from molasses as the main ingredient. combined with sherry wine made from the white grape palomino fino widely grown in Spain and South Africa with the acidity and mild saltiness of the typical olives, the salty taste from the guise salt helps the aftertaste of sherry adding the layers of complexity. always a perfectionist for everything, the light yellow color of topaz is the element that gives virgo more confidence to make quick decisions and more self-confidence.

opal

glass/280

(dill / bombay sapphire gin / st germain / lotus / lemon / foam)

the flavor represents the personality and appearance of pisces, with the peaceful blue of the ocean, gentle but profound. the multi-colored stone symbolizes pisces' wealth of imagination, compassion, and sympathy. when enjoying opal, a very smooth and fragrant taste of lotus seeds and fresh dill leaves lingers on the lips, the next destination is the scent of elder flowers. opal's journey to experience the taste continues with the light fatness of the top foam layer, which helps to last longer than the original notes."

ruby

glass/280

(hibicus / tanqueray gin / umeshu / campari / cherry / orange bitter)

the bright red color represents the fire par of aries from hibiscus tea steeped with premium gin - tanqueray from bloomsbury, London of England, brings a lightly sour taste. the feeling of roundness comes from fresh sweet and sour cherries and japanese apricot wine. after all the pleasant, smooth aromas of hibiscus flowers and cherries, the aftertaste becomes more impressive with the bitter taste of campari from italy, providing an unforgettable experience. like the personality of aries - brave, courageous, always ready to face all difficulties and challenges in life.

jade _____ glass/280

(*dalat green bell pepper / tequila cuervo / seaweed / mezcal / fernet*)

jade has the same complex flavor structure as the taurus personality. the consistency, representing the berry comes from green bell peppers. the effect, representing the combination of slight salty taste from japanese seaweed, with a slight co2 sensitivity in mexican mezcal (the same origin as the famous tequila). the smoke of the mezcal type is not the same as the whiskeys from the islay region, but rather made from the agave tree, which has a different geography and climate than scotch. the aftertaste is a synthesis of previous notes, humming forever in the palate, representing the reality of taurus' personality.

peridot _____ glass/280

(*michelia tonkinensis seed / marker's mark / fernet hunter / mirin / laphroaig 10y*)

typical ingredient from the Northwest of Vietnam - doi seeds, soaked with gin to increase the herbal character. the balance of sourness from the famous passion fruit of the tropics and the slight sweetness of mirin from japanese rice, represents the symbolic balance of libra. after that is the blending of a natural sassafras note, the strong smoke is kept in the aftertaste for a long time. peridot is the symmetry of flavor, the smoke is the influence of libra, to celebrate one's individuality and wisdom.

em-e _____ glass/280

(*jackfruit / dark rum / cognac hennessy v.s / kaffir lime leaves / d.o.m / kumquat*)

em-e (emerald) is the most precious stone, ranked in group i after diamond, ruby and sapphire as cancer's personality always tends to hide creativity, natural talent, especially quiet but in the crowd, it is not difficult to recognize cancer. the sweetness of ripe jackfruit (Western Vietnam) combined with the sour taste of tangerines (Northern Vietnam) contained in emerald is a unique combination, adding to the smoothness of the excellent hennessy cognac, with a freshly fruity flavor and wood. lemon leaves are a prominent floral note to add freshness to em-e. the aftertaste is bold, very classic but has a tropical style like the melancholy, sentimental of the 4th zodiac."

aqua _____ glass/280

(*shiitake mushroom/ zacapa 12 ambar / pineapple / baby corn / coconut nectar*)

zacapa 12 ambar rum has a characteristic vanilla aroma and dark color. shiitake mushrooms are handcrafted in the form of syrup to preserve the characteristic umami aroma, alternating with the light sweetness of coconut water and baby corn. leaving a strong aftertaste, with a little acidity from the pineapple. aquarine is combined by 2 color arrays, each with 2 representatives, light color (coconut water, baby corn) and dark color (zacapa 12 ambar rum, shiitake), which is the image of gemini, two boys with opposite personalities: flexible, adaptable, interested in surrounding.
